Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S. C. 121:
 - I. Claims 1-7, 11 and 12 drawn to a system and computer program for specific transport protocol implementation, classified in class 709 subclass 230.
 - II. Claims 8-10 drawn to methods, systems, a method for delivering heterogeneous messages, classified in class 709 subclass 313, 319.
2. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as implementation of JAVA enable plug in to enable data communications selectively from various transport protocols, e.g., UDP, TCP, HTTP, WAP, etc.; Invention II has separate utility such as having a capability to introspect and adapts and translate data format for non-Java to Java format. See MPEP § 806.05(d).
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Art Unit: 2141

4. Because these inventions are distinct for the reasons given above and the search required for each of Groups I and II is not required for each of the other Groups, restriction for examination purposes as indicated is proper.

5. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

6. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement is traversed (37 CFR 1.143).

7. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
